

I'm not robot

Continue

Above and below the bravery

Sorry! Something went wrong. Is your network connection unstable or browser out of date? Ooowwww Ooowwww Like I want to leave this place for good. Underground I live there without sound. And never hear These singsing voices all the same I'll disappear. Causing life makes me ashamed Ooowwww Ooowwww I must believe There is more above us and below I have to believe Stranded with this b**ch called hope it keeps me here. If All I want to do is go. It keeps me here. If I just want to disappear if this is it. If all we have and ever will If this is it Time is running out and standing still I'm leaving today. Because there's nothing left to keep me here. I'll fade. I turn around and disappear the city moves. Lunges up right off the ground The seething earth It opens and spits us out This cruel child Nature never wanted us This cruel child A cancer that burns black in its heart like this it is If all we have and ever will If this is it Time is running out and standing still I'm leaving today. Because there's nothing left to keep me here. I'll fade. I turn around and disappear Ooowwww. Sometimes I feel Like I want to leave this place for good. Underground I live there without sound. And never hear These singsing voices all the same I'll disappear. Causing life makes me ashamed if this is it If all we have and ever will If this is it Time is running out and standing still I'm leaving today. Because there's nothing left to keep me here. I'll fade. I turn around and disappear. I turn around and disappear.
